Black Economic Empowerment – In Excess Trading (Pty) Ltd

In Excess Trading (Pty) Ltd has embarked on a **Broad-based BEE process** to be compliant within the next few months and BEEExchange Empowerment Advisors has been contracted to facilitate the process in order to ensure a successful rating via Empowerdex. We are assisting them in establishing a formal BEE policy as the 1st step and they will make this available to their clients shortly.

We are confident from our initial assessment that In Excess Trading (Pty) Ltd will achieve at **least** a level 4 rating from Empowerdex, but they are aiming for a level 3 rating. We are sure they will keep all their clients updated on their progress in obtaining and improving BEE compliance in the future.
